Players can manage their own team, the Dream FC, and customize it to fit their style. The team will have a unique logo and random players that can be transferred and replaced to build the perfect squad. To personalize the team further, users can change the kit, boots, and other elements. The site also provides links to download kits and logos for top teams from around the world, including Barcelona, Real Madrid, Juventus, and more. Users can search for their favorite teams using CTRL + F and easily access the latest Dream League Soccer Kits 2019. In addition to the current year's kits, the website offers a collection of Dream League Soccer 2020 kits for various clubs, such as Deportivo Alaves, Athletic Bilbao, and Atletico Madrid. The 2019-20 kits for various soccer teams have been released in Dream League Soccer. These include Boca Junior, Independiente, Racing Club, River Plate, San Lorenzo, Atlanta United, Chicago Fire, DC United, FC Dallas, LA Galaxy, New York Red Bulls, New York City, Seattle Sounders FC, Toronto FC, Club America, Cruz Azul, Chivas de Guadalajara, Pumas UNAM, Tigres UANL, and Cerezo Osaka. Additionally, kits for J1 League teams like Cerezo Osaka, FC Tokyo, Gamba Osaka, Jubilo Iwata, Kashima Antlers, Kawasaki Frontale, Sanfrecce Hiroshima, Urawa Red Diamonds, Vegalta Sendai, Vissel Kobe, and Yokohama F. Morinos have also been included. Fans can customize their teams with official logos and kits from real teams in the career mode of Dream League Soccer. To do this, they need to go to My Club > Customize Team, where they can modify home and away kits, change the team logo, name, and stadium. There are many templates available that allow for color changes, but there is also an option to import kits from external files. For those who want to download official kits, they can search online using the team name followed by "kit" and "Dream League Soccer". Websites like this one have a large collection of downloadable files. To install a kit, fans need to follow these steps: open the game, go to My Club > Customize Team, choose Edit Logo, tap Download, enter the URL of the logo into the field, copy the link from the address bar, and return to the game by pasting the address. This allows fans to personalize their teams with authentic kits. To alter kits, tap Edit Kit, then pick one from the five options and confirm. For this process, minimize, copy, and paste the desired kit, after which you'll hit Confirm again. If you want to create your own custom kit, there's an official guide on Dream Web Soccer that utilizes templates. To do so, make sure your file size is within 512x512 pixels and is saved in PNG format.
